This project has received funding from the European Union's Horizon 2020 Research and Innovation programme under grant agreement No 870697

DUET leverages cloud and high-performance computing (HPC), in the form of Digital Twins, to help public sector decision-making become more democratic and effective.

By creating digital replica's of a city, people can use 3D and 2D interfaces for easy policy impact exploration and experimentation across entire cities and regions.
